Message page:

The figure consists of five vertically stacked screenshots of a "Send a Message" form. Each screenshot shows a different step in the validation process of an email message.

- Screenshot 1:** Shows the initial state of the form. The "Name" field contains a blank value. A validation message "Please fill out this field." is displayed above the "Email" field.
- Screenshot 2:** The "Name" field now contains the value "Raghad". The "Email" field is still empty, and the validation message remains.
- Screenshot 3:** The "Email" field now contains the value "Re\_11". A validation message "Please include an '@' in the email address. 'Re\_11' is missing an '@'." is displayed above the "Subject" field.
- Screenshot 4:** Both the "Name" and "Email" fields contain valid values ("Raghad" and "Re\_11@hotmail.com"). The "Subject" field is empty. A validation message "Please fill out this field." is displayed above the "Message" field.
- Screenshot 5:** All fields are now filled: "Name" is "Raghad", "Email" is "Re\_11@hotmail.com", "Subject" is "Works", and the "Message" field contains some text. The validation message "Please fill out this field." is still present above the "Message" field.
